Our Keynote Speaker: Rebekah Hagan

Rebekah Hagan is one of today's youngest speakers on the issues of teenage pregnancy, abortion, and abortion pill reversal. Raised in a Christian home where abortion was never discussed, Rebekah's life in pro-life ministry was unplanned and fueled, instead, by her firsthand experience. She became pregnant at seventeen with her son, Eli, and again with a second child while in her first year of college.

Feeling ashamed and fearing that she would lose her family and be forced to drop out of school, Rebekah thought that raising two children alone would be impossible. At just over seven weeks pregnant, she began a medication abortion that changed her life; however, her story did not end there.

Her story has been shared by local and national media, as well as religious and secular organizations, including Vice News HBO, Focus On The Family, Students For Life, Live Action, Heartbeat International, Epoch Times, and World Magazine.

Rebekah is a graduate of William Jessup University and a Mission Advancement Officer at Heartbeat International. She and her family reside in Northern California.
